

## DECLARATION OF WARRANTY

While producing Hengst filters all work is carried out ensuring a maximum in safety of the products / filters according to the respective state of technical development.

Quality controls of incoming goods as well as interim and end controls of the current production serve the constant quality assurance and grant a high quality standard.

Proper functioning of Hengst filters is warranted during the warranty period and in due consideration of the service intervals prescribed by the vehicle manufacturers.

If despite our extensive production controls a defective part ends up on the market, we assume full warranty according to German law and full liability for damages caused by us and for which we are liable.
